

2016

RC

INTRODUCING THE 2016 RC

RC 200t

Aggressive coupe body style, all-new 2.0-liter turbocharged engine delivering 241 horsepower,² a 7.3-second 0-60 time^{2,3} and eight-speed Sport Direct-Shift transmission with paddle shifters and downshift throttle-blipping. Rear-wheel drive.

RC 300

Assertive styling with full-time all-wheel drive (AWD), a 3.5-liter V6 engine delivering 255 horsepower,² a 6.3-second 0-60 time^{2,3} and a six-speed transmission with paddle shifters.

RC 350

Athletic performance with a highly rigid body, a 3.5-liter V6 delivering 306 horsepower,² a 5.8-second 0-60 time^{2,3} and eight-speed (RWD) or six-speed (AWD) transmission with paddle shifters. Available rear-wheel drive or all-wheel drive.

RC F SPORT MODELS

In addition to the three RC engine choices, each model can be taken to the next level with a standard F SPORT-tuned Adaptive Variable Suspension, bold interior and exterior styling including sport front seats with enhanced bolsters, 19-inch split-10-spoke wheels,⁴ and exclusively available features including a new limited-slip rear differential with lateral performance dampers (RWD). Available rear-wheel drive or all-wheel drive.

NOTHING IN MODERATION

With multiple new models and a striking coupe body style that boasts sculpted lines and a wide, low stance, the 2016 RC line seamlessly balances eye-catching design with exhilarating performance. Take a breath and fasten your everything.

OPEN EYES, TURN HEADS.

While the captivating styling of the coupe will draw you in, there's another side that's equally compelling. Offering multiple levels of performance, from the first-ever turbocharged RC 200t and the all-wheel drive RC 300 to the exhilarating RC 350 and F SPORT versions of all three, the only thing you won't find in the 2016 RC line is an ounce of restraint.

For those craving a double shot of adrenaline with their double-take-worthy styling, the RC 350 F SPORT is now available with lateral performance dampers for added rigidity, and a limited-slip differential which instantly distributes power to the rear wheel with the most grip to help enhance traction and control during cornering.

FROM THE GROUND UP

How do you engineer a vehicle that delivers radical performance matched only by its radical design? Start from the ground up. Even if it means rethinking the entire production process. Which, in order to realize the RC designers' bold vision of dynamic contours that flow seamlessly from one shape to the next, is exactly what Lexus did.

Even the design of the new turbocharged engine wasn't left to chance. Unlike some automakers, Lexus didn't outsource the development of its turbocharger. Painstakingly researched and engineered by Lexus until it met rigorous standards for performance, the first-ever RC 200t offers breathtaking proof that good things come to those who wait.

DESIGNED TO STIR

THE SENSES

Whether it's the striking beauty of the intensely sculptured lines found on the outside of the RC or the profound strength delivered by its gigantic side sills and A-frame underbody brace, you'll discover the unconventional design of the RC can elicit a response as visceral as the one evoked by its radical performance.

STATE OF THE ART

While the exterior of the RC screams exhilarating performance, the cutting-edge design of the interior makes an audacious statement of its own. The attention to detail given to the deeply bolstered front sport seats found in the cockpit of the RC can only be described as obsessive.

From the meticulous stitching and available perforated leather trim, to the available heated and ventilated front seats, the RC was designed to give you a ride that is as luxurious as it is thrilling.

The interior of the RC is replete with luxurious details that envelop you in comfort while exhilarating the senses. Sculptural interior lines are punctuated by available features like eye-catching perforated leather-trimmed seats and exclusive wood trim. And, adding intrigue to the overall design, an ambient lighting system senses the driver's presence and responds with warm, welcome illumination.

THE NEXT LEVEL OF CONNECTIVITY

Lexus Enform,⁵ our available suite of branded connected services, consists of five products, each of which offers unique ways to enhance the driving experience. With a complimentary first year of service—entertainment, convenience and peace of mind are now within reach.

SAFETY CONNECT

Lexus Enform Safety Connect⁶ offers you the peace of mind of knowing that assistance can be there when you need it most. Whether you're involved in a collision and unable to call for help, your vehicle is stolen, or there is some other type of emergency, assistance can be sent directly to your vehicle's GPS location.

SERVICE CONNECT

Our new Lexus Enform Service Connect⁷ offers remote access to information about your vehicle's status and maintenance needs. Easily accessed through LexusDrivers.com or the My Lexus and Beyond mobile app, you can get information on everything from your vehicle's fuel level and mileage to maintenance alerts and vehicle health reports.

REMOTE

The Lexus Enform Remote⁸ mobile app can remotely start the engine, lock and unlock doors, check the status of doors and windows as well as your fuel level, and can help find your vehicle's location in a parking lot. And, should you loan your Lexus to another driver, you can receive instant alerts if, for example, a preset speed or mile limit is exceeded.

DESTINATIONS

Lexus Enform Destinations⁵ offers convenient 24-hour, en-route navigation assistance from a live response center agent who can help you find locations and automatically upload the destinations to your available Navigation System.⁹ Planning a trip? You can also search, save and upload destinations from the comfort of your home or office.

APP SUITE

The Lexus Enform App Suite⁵ offers access to your favorite mobile applications through your vehicle's center-console display. After downloading the app on your compatible smartphone, you can search local listings, stream music, place restaurant reservations and buy movie tickets—all from the center-console display.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other Lexus features, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled iPad^{®10} apps like FaceTime.^{®11} Learn more about these complimentary services at lexus.com/specialists.

REMOTE TOUCHPAD

Equal parts functionality and form, the available Remote Touchpad¹² is more than a way to access multimedia and climate controls. Offering ample touch surface area, pulsation feedback and intuitive operation via pinch, swipe and flick gestures just like your smartphone, the touchpad found in the RC offers innovation at your fingertips.

3-D NAVIGATION

This voice-activated system⁹ can map millions of points of interest across the country and can display information in English, French and Spanish. And, in addition to offering up-to-date traffic and weather information,¹³ 3-D city views, and simulated views of approaching highway junctions, it displays the current speed limit and can automatically identify nearby gas stations if you begin to run low on fuel.

ALL BEAUTY.
ALL BRAINS.

MARK LEVINSON® AUDIO

Be moved even while parked with an available 17-speaker, 835-watt Mark Levinson Premium Surround Sound Audio System.¹⁴ GreenEdge™ speaker technology allows twice the output of conventional speakers, while mid-range Unity™ drivers help re-create a sensation of openness, enveloping every passenger with three-dimensional sound that rivals the finest home audio systems.

VOICE RECOGNITION

As responsive inside as it is on the road, advanced voice command enables you to place compatible Bluetooth^{®15}-enabled phone calls and operate climate, audio and navigation functions using normal, everyday speech. If you say "It's too hot in here," for example, the climate control will automatically lower the temperature by four degrees. With Enhanced Bluetooth technology,¹⁵ compatible Bluetooth¹⁵ mobile-phone address-book contacts can be viewed and accessed on the Navigation System⁹ display or via voice command.

PRE-COLLISION SYSTEM

The available Pre-Collision System¹⁶ is engineered to detect an imminent frontal collision and, while retracting the front seatbelts, automatically prepares Brake Assist¹⁷ for increased braking response, and is even designed to automatically begin braking before impact.

ADVANCED BLIND SPOT MONITOR

The available advanced Blind Spot Monitor¹⁸ in the RC not only alerts you when it detects vehicles approaching from behind, but it is also capable of doing so for vehicles approaching at greater distances. Rear Cross-Traffic Alert¹⁹ can help provide peace of mind when backing out of a parking space by notifying you of vehicles approaching from either side.

BACKUP CAMERA WITH GRIDLINES

When you place the RC into reverse, the view from the backup camera²⁰ is displayed on the multimedia display in full color with dynamic gridlines to assist you with parking and other maneuvers.

DYNAMIC RADAR CRUISE CONTROL

To help you maintain a preset distance from the vehicle ahead, Dynamic Radar Cruise Control²¹ uses radar technology to sense the speed of vehicles in front of you. If your RC gets too close to the vehicle ahead, the throttle is automatically reduced and the brakes are applied. As soon as the road ahead clears, the RC returns to its preset speed.

ALL-WEATHER DRIVE

Throw caution to the wind. Or the rain. With the brilliantly engineered all-wheel drive system on the RC 300 and RC 350 AWD, you can experience control in most driving conditions. By monitoring current conditions, the system automatically distributes engine power between the front and rear axles to help provide optimum traction and control—even in inclement weather.

UNFLINCHING PERFORMANCE

F SPORT

Boasting interior and exterior styling that refuses to go unnoticed, the RC F SPORT also pushes performance to the next level. With exclusive, race-inspired upgrades like a G-force monitor and digital gauges that feature a sliding metallic-trimmed bezel to reveal information. Exhilaration is further enhanced, courtesy of an Adaptive Variable Suspension with Sport S+ mode, and larger two-piece front brake rotors (RWD) with high-friction pads²² for greater response and reduced brake fade.

306- HORSEPOWER² SERENADE

Too much power? Too much control? No such thing. Own the road in a way that's totally your own with an eight-speed transmission (RWD) and paddle shifters for optimum control. Delivering heart-racing gear changes as fast as 0.2 seconds, the paddle shifters in the RC 350 help you realize the full potential of its 3.5-liter V6 engine. And, when pushed above 4,500 rpm, the cockpit is filled with a throaty engine note that complements the exhilarating performance of the RC itself.

AHEAD OF THE CURVE, FROM EVERY ANGLE.

DYNAMIC REAR STEERING PUSHES F SPORT TO THE LIMIT

Available on the RC 350 F SPORT (RWD), Lexus Dynamic Handling with Dynamic Rear Steering, combined with Variable Gear-Ratio Steering, optimizes everything from suspension to steering response in order to sharpen vehicle handling and control. Depending on speed and steering angle, the Dynamic Rear Steering system can adjust the angle of the rear wheels up to two degrees to help provide optimal agility and stability. So go ahead and get exactly what you desire: performance on demand.

BOLSTERED F SPORT SEATS

Feel confidence through every curve with front sport seats designed to hold you through even the most aggressive of turns. Featuring a unique foam construction and designed to contour to the needs of the driver, these sport seats will have you wrapped from hip to shoulder in high-G situations. Their low position helps place the driver's hip point as close to the center of gravity as possible for a more dynamic driving experience.

FROM RACE-WAY-TO DRIVE-WAY

THE HIGHEST LEVEL OF RC PERFORMANCE: THE RC F

Developed on world-renowned tracks to satisfy the most demanding driving enthusiasts, the RC F is not just the next expression of Lexus performance. It's an unprecedented feat of performance engineering. Wielding a potent 467-horsepower,² 5.0-liter V8 and offering an arsenal of track-ready components like an available Torque Vectoring Differential and speed-activated carbon fiber rear wing, this is exhilaration forged from the asphalt up.

PACKAGES

PREMIUM PACKAGE

Blind Spot Monitor¹⁸ with Rear Cross-Traffic Alert¹⁹

- A Heated and ventilated front seats
- Electrochromic (auto-dimming) outside mirrors with auto tilt-down in reverse

LUXURY PACKAGE

- Includes Premium Package, plus:
- B Perforated leather interior trim
 - C Power tilt-and-telescopic steering column
 - Lexus Memory System for driver's seat, outside mirrors and steering column
 - Rain-sensing windshield wipers
 - Heated steering wheel (AWD)

NAVIGATION PACKAGE

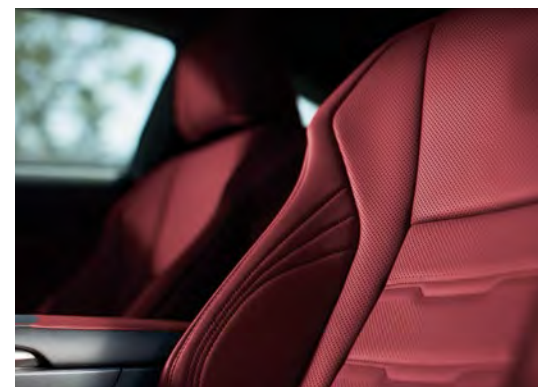

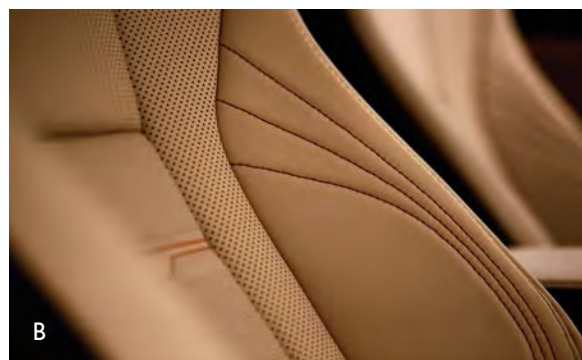

- D Navigation System⁹ with DVD/CD player, color multimedia display and Lexus Enform App Suite⁵
- Remote Touchpad¹²
- Voice command
- Lexus Enform Destinations⁵ Complimentary for the first year of ownership

NAVIGATION + MARK LEVINSON AUDIO PACKAGE

- Includes Navigation Package, plus:
- E Mark Levinson Premium Surround Sound Audio System
 - 17 GreenEdge™ high-efficiency speakers including subwoofer
 - 835-watt Class-D amplifier
 - Clari-Fi™ audio processing
 - 5.1-channel surround sound
 - Machined-aluminum control knobs

ALL-WEATHER PACKAGE

- F Headlamp washers
- Windshield wiper de-icer
- Water-repellent front-door glass
- Fast-response interior heater

- F SPORT front fascia, grille and exterior badging
 - F SPORT 19-in split-10-spoke alloy wheels with summer (RWD) or all-season (AWD) tires⁴
 - F SPORT-tuned Adaptive Variable Suspension (AVS) with SPORT S+ drive mode
 - Two-piece front brake rotors (RWD) with high-friction brake pads²²
 - Vehicle Dynamics Integrated Management (VDIM)²⁶ with Sport mode
 - LFA-inspired instrumentation
 - Silver Performance trim
 - Perforated leather-trimmed shift knob and steering wheel with F SPORT logo
 - Aluminum sport pedals
 - Stainless-steel door sills
 - Heated steering wheel (AWD)
 - Black headliner
 - Lexus Memory System for driver's seat, outside mirrors and steering column
 - Power tilt-and-telescopic steering column
 - Active sound control

ACCESSORIES

- A **REAR SPOILER**
Enhance the bold aerodynamic presence of your vehicle.
- B **F SPORT PERFORMANCE EXHAUST SYSTEM³⁰**
Turn heads while emitting a throaty growl with boosted torque and acceleration.
- C **F SPORT LOWERING SPRINGS³⁰**
Provide a more aggressive stance and a lower center of gravity.
- D **CARGO NET**
An innovative cargo net with integrated storage pouch.
- E **ILLUMINATED DOOR SILLS**
Illuminated door sills include a protective, stainless-steel overlay.

THE INSPIRATION

Snow-covered hills in Hokkaido

THE RAW MATERIAL

Eminent White Pearl pigment from 98-year-old Kansai Paint Company

THE METHOD

SONIC paint technology aligns the angles of reflective particles for uniform reflectivity

THE APPRENTICE

Lexus mapped the painting motions of a master craftsman in order to duplicate the technique with robots

THE UNWAVERING STANDARDS

Waterfalls in painting facilities trap dust

THE ART OF COLOR

One unexpected moment of inspiration, years of development and zero shortcuts. This is the art of creating art. The culmination of a passion for design and industry-leading knowledge, every Lexus color features stories and processes as unique as their hues. Take the Eminent White Pearl. Brilliant in the sun and muted in the shade, it was inspired by and created specifically to mimic the color and appearance of snow on the hills of Hokkaido, Japan. It's an effect not left to chance, which is why Lexus sources pigment from a company in Osaka—one that's been perfecting its craft for 98 years and counting. It's also why every Lexus painting facility features indoor waterfalls to trap and wash airborne dust particles away so they don't inconspicuously mar the vehicle's finish. Even science plays a role. Lexus created a technique that more uniformly aligns the angles of the reflective particles in paint to better accentuate the vehicle lines. Then mapped the motions of arguably the most gifted automotive painter in the world in order to have robots duplicate his craft on every Lexus vehicle. Because the only thing more important than creating a stunning work of art is making sure each is as stunning as the last.

WARRANTY Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the *RC Warranty and Services Guide* at your Lexus dealer for details.

DISCLOSURES **1.** Ultrasonic Blue Mica 2.0 and Infrared available for an additional \$595. **2.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. If premium fuel is not used, performance will decrease. **3.** Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. **4.** 18- or 19-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 15,000 miles, depending upon driving conditions. **5.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps & services subject to change. See lexus.com/enform for details. **6.** Contact with the response center may not be available in all areas. Service Agreements required. A variety of subscription terms available; charges will vary. See lexus.com for details. **7.** Information provided is based on the last time data was collected from the vehicle and may not be up to date. System functionality depends on vehicle connectivity. **8.** Use only if aware of circumstances surrounding the vehicle, and it is legal & safe to do so (e.g., car uncovered in open area, no people or pets in or nearby). If vehicle has not been driven for over a week, services will not be available until next time vehicle is started. Functionality depends on many factors, such as vehicle and smartphone connectivity. See usage precautions, service limitations & *Owner's Manual*. Data charges may apply. Registration, app download are required. Must have active Safety Connect subscription. Annual fee required after 1-year trial. **9.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by the Navigation System is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. Updates may be available at an additional cost from your dealer. See *Navigation System Owner's Manual* for details. **10.** iPhone® and iPad® are registered trademarks of Apple Inc. All rights reserved. **11.** FaceTime® is a registered trademark of Apple Inc. All rights reserved. **12.** Be sure to obey traffic regulations and maintain awareness of road and traffic conditions. **13.** HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. **14.** Mark Levinson® is a registered trademark of Harman International Industries, Inc. **15.** The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under license. A compatible Bluetooth-enabled phone must first be paired. Phone performance depends on software, coverage & carrier. **16.** The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road conditions. See *Owner's Manual* for further information. **17.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance, tire and road conditions. **18.** Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, see *Owner's Manual*. **19.** Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see *Owner's Manual*. **20.** The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather may limit effectiveness and view may become cloudy. **21.** Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. See *Owner's Manual* for details. **22.** High-friction brakes require periodic inspection and measurement as outlined in the *Warranty and Services Guide*. The pads and rotors are expected to experience greater wear than conventional brakes. Pad life may be less than 20,000 miles, and brake rotor life may be less than 50,000 miles depending on driving conditions. F SPORT models may feature Brembo® brakes. It is an inherent characteristic of materials and design of brake pads used in this high-performance brake system that brake noise/squeal may result. **23.** 2016 EPA-estimated ratings. Actual mileage will vary. **24.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **25.** The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local *Yellow Pages* or by contacting www.aloa.org. **26.** Vehicle Dynamics Integrated Management (VDIM) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VDIM will be effective in preventing a loss of control. See *Owner's Manual* for further details. **27.** All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See *Owner's Manual* for further information/warnings. **28.** Do not rely exclusively on the Intuitive Parking Assist system. Always look over your shoulder and use your mirrors to confirm clearance. System effectiveness depends on many factors. See *Owner's Manual* for details. **29.** TORSSEN® is a registered trademark of Zexel Torsen, Inc. **30.** F SPORT Accessories are warranted for 12 months from the date of installation or for the balance of the new-car or Certified Pre-Owned (CPO) warranty in force at the date of installation, whichever is greater, when installed by an authorized Lexus dealer. F SPORT Accessories installed by anyone other than an authorized Lexus dealer are warranted for 12 months from the date of purchase only, and the warranty coverage is limited to the replacement value of the F SPORT Accessories. These warranties do not cover maintenance services such as replacement of brake pads/linings and clutch linings or noise, vibration, cosmetic conditions and other deterioration caused by normal wear and tear. Part failure caused by improper installation by anyone other than an authorized Lexus dealer may void the F SPORT Accessories warranty, the new-vehicle warranty or both. F SPORT is a trademark of Toyota Motor Corporation. Products available through participating Lexus dealers.

Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, and are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer or call Lexus Financial Services at 800-874-7050.
