

2023

LS

Can a vehicle's technology feel
like an extension of its driver?

Can something that's existed for
millions of years suddenly feel new?

Can the shape of a seat cushion make
conversations more enjoyable?

To craft the most amazing machines, you don't start with machines at all. You start with people.

The 2023 Lexus LS

LS 500

From its elevated interior with all-new Lexus Interface¹ connectivity to its bold front fascia, headlamps and taillamps, the LS is extraordinary inside and out. Built upon the platform of the high-performance LC coupe, it's powered by a twin-turbocharged 416-hp² V6 engine paired with a thrilling 10-speed automatic transmission and delivers a ride that's exhilarating as well as refined. Rear-wheel drive or all-wheel drive.

LS 500h AWD

The original multistage hybrid prestige luxury sedan continues to raise the bar with available Lexus Teammate^{TM3}—our revolutionary advanced driving assistance technology. The LS Hybrid pairs a potent 3.5-liter V6 engine with powerful electric motors and a lightweight lithium-ion battery, delivering seamless acceleration and torque without requiring a charge. Providing you the direct, instinctive feel of a 10-speed automatic transmission, this is where efficiency and luxury meet unprecedented convenience.

LS 500 F SPORT

Featuring performance-inspired instrumentation, bolstered front sport seats, F SPORT 20-inch wheels with a Dark Vapor Chrome finish, larger brakes, aluminum pedals and our most advanced available vehicle dynamics control system yet, the LS F SPORT delivers the most engaging LS driving experience ever. And the exclusive Dynamic Handling Package (RWD) with Active Rear Steering and active stabilizers pushes the intensity even higher. Rear-wheel drive or all-wheel drive.

VISIONARY TECHNOLOGY

Available state-of-the-art Lexus Teammate³ technology, world-class audio, and Lexus Interface¹ that connects you like never before. This is our most advanced LS ever.

LS shown with Black leather and Kiriko Glass interior trim

The product of a relentless focus on crafting vehicles that put people first, the 2023 LS features more intuitive technology throughout. With new Lexus Interface, an active Drive Connect⁵ trial or subscription offers the benefit of an Intelligent Assistant that enables voice control of commonly used functions. While the LS Hybrid offers Advanced Park⁶ and Advanced Drive⁷ capability to help seamlessly integrate with you for added convenience and peace of mind. Inside, a driver-centric cabin boasts one of the most sophisticated 3D audio experiences available in an automobile: the world's first Mark Levinson^{®8} Quantum Logic[®] Immersion.

TRANSPORTATION, TRANSFORMED.

Experience the next level of driver convenience and the next leap forward for Lexus vehicles.

When a global team of engineers shares the singular goal of creating industry-leading advanced driver-assistance functionality, the result is nothing short of extraordinary. Available on the LS Hybrid, Lexus Teammate³ is an intuitive Lexus-first technology comprising two systems that will change how you think about driving. Advanced Drive⁷ partners with the driver for added convenience and peace of mind when driving along supported controlled-access highways by monitoring surrounding conditions and automatically controlling the vehicle's steering, acceleration, braking and more. Under certain conditions, it can also offer hands-free capabilities. And when driving to a programmed destination, it can even plan actions miles in advance. While Advanced Park⁶ makes parallel parking and backing into tight spaces as effortless as pressing a button. With the ability to automatically receive over-the-air software updates, Lexus Teammate has the potential to become smarter over time, unlocking a new future of mobility.

HEAD-UP DISPLAY INTEGRATION

The large Head-Up Display within the windshield shows preceding vehicles, upcoming curves in the road, the vehicle's course and its programmed route, helping you stay focused on the road ahead.

PROACTIVE ASSISTANCE

Helping you maintain adequate spacing on both sides of the vehicle, the Advanced Drive system⁷ can preemptively slow the vehicle down when merging.

EMERGENCY DRIVING STOP

If this system⁹ detects the driver is no longer actively in command of the vehicle—such as in a medical emergency—the vehicle can, in some cases, help automatically steer to the shoulder and come to a complete stop if it is safe to do so.

HANDS-FREE PARKING

Facilitating hands-free parking, whether parallel parking or backing into a space, an Advanced Park system⁶ is designed to control steering, acceleration, braking and gear changes when parking.

SMARTER OVER TIME

Should new software updates become available, the system and vehicle can automatically be updated remotely, helping ensure you have access to any new enhancements.

LSH shown in Atomic Silver

UNPRECEDENTED CONNECTIVITY

Experience all-new Lexus Interface. It's technology so intuitive and personal it feels like an extension of you.

LEXUS INTERFACE¹

With an active Drive Connect⁵ trial or subscription, the Intelligent Assistant feature offers voice-activated control for unprecedented convenience. Its Cloud Navigation feature offers more accurate directions and can provide real-time route information. And the Profiles¹ feature allows different drivers to create personalized settings that can go from vehicle to vehicle.

INTELLIGENT ASSISTANT

Among the benefits of an active Drive Connect trial or subscription, Intelligent Assistant lets you use everyday, casual speech to control most in-car functions. By simply saying "Hey Lexus," you can adjust cabin temperature, add navigation points, change audio selections and more.

WIRELESS APPLE CARPLAY

With wireless access to Apple CarPlay^{®10} integration, you can access the same familiar interface from your iPhone[®] through the vehicle's multimedia display. Get directions, send and receive messages via Siri^{®11} and make calls. Plus, never be without your favorite apps like Waze,[™] Apple Music^{®12} and Apple Audiobooks.^{™13}

WIRELESS ANDROID AUTO

Android Auto^{™14} enables wireless access so you can display your device's interface on the vehicle's multimedia display. Play music via apps like Spotify^{®15} and Pandora,[®] send messages through WhatsApp,^{®16} and more. Navigate with Google Maps¹⁷ and request information—all with your voice. Just say "Hey Google" to get started. For added convenience, Android Auto can also help shorten your commute by automatically finding alternate routes if it detects heavy traffic.

DELIVERY AND TECHNOLOGY SPECIALISTS

To help you get the most out of these and other features in your new Lexus, a Vehicle Delivery Specialist will walk you through nearly every setting and function you desire. And to answer questions that arise after delivery, a Vehicle Technology Specialist can offer expert guidance in person or without you ever leaving the driveway via camera-enabled apps like FaceTime.[®] Learn more about these complimentary services at lexus.com/specialists.

LS shown with White leather and Laser Special Black interior trim

EVERY ELEMENT CRAFTED AROUND YOU

Inspired by *omotenashi*, the Japanese concept of hospitality, our vision is to anticipate the driver's needs and form a relationship that is seamless and intuitive. That's why we partnered with Mark Levinson® to create a world's-first audio system that delivers a totally unique, totally immersive listening experience. Featuring 23 speakers (including four in the ceiling), it creates one of the largest soundstages in the industry while creating a closer connection between the occupants and every note. And with Quantum Logic® Immersion, it also offers one of the most sophisticated, purest 3D audio technologies available in an automobile. To further envelop you in the inviting interior, the LS offers four customizable temperature zones throughout the cabin, available 28-way adjustable front seats, and a seat-cushion extender on the front-seat edge that can extend to fully support your thighs.

PEACE OF MIND, STANDARD.

Lexus Safety System+ 2.5 features an integrated suite of class-leading standard active safety equipment.^{18,19}

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION

By enhancing the radar and camera capabilities, it's possible for the system²⁰ to help detect not only the vehicle ahead, but also a preceding bicyclist in daytime and even a preceding pedestrian in daytime and low-light conditions. Should it detect a potential frontal collision, it can help automatically brake to help mitigate or avoid a collision.

LANE TRACING ASSIST

When All-Speed Dynamic Radar Cruise Control²¹ is enabled, this hands-on system²² monitors visible lane markings and can recognize vehicles ahead. To help the driver keep their vehicle centered in the lane, it can provide steering assistance. Designed for peace of mind, the system can even be used in traffic and on highways with gradual curves.

LANE DEPARTURE ALERT WITH STEERING ASSIST

This system²³ utilizes a camera to monitor visible lane markings. If an inadvertent lane departure is detected at speeds above 32 mph, the system is designed to warn you so that you can steer back into the lane, and can even take slight corrective measures to help keep you within your visibly marked lane.

ROAD SIGN ASSIST

This system²⁴ uses a built-in camera to help provide road sign information in the instrument panel or even on the available Head-Up Display. In addition to displaying speed limit information, the system can alert you of certain detected signs you otherwise might have missed.

ALL-SPEED DYNAMIC RADAR CRUISE CONTROL

This system²¹ helps detect an upcoming curve and may lower your speed accordingly. It also helps you maintain a preset speed and following distance from the vehicle ahead. Whether at highway speeds or in stop-and-go traffic, the system is designed to detect if you get closer than the preset distance and can automatically slow your vehicle—even to a complete stop.

INTELLIGENT HIGH BEAMS

To help provide greater visibility for you as well as other drivers, Intelligent High Beams²⁵ offer added illumination to help keep you focused on the road. When the road ahead is clear, the system defaults to high-beam mode, then temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.

OUR MOST ADVANCED SAFETY SYSTEM YET: LEXUS SAFETY SYSTEM+ A.

Honed on one of the most complex highway systems in the world, the Tokyo Metropolitan Expressway, Lexus Safety System+ A²⁶ is the most advanced safety system available on a Lexus. It features Intersection Support²⁷ to help you detect a pedestrian or vehicle when you're making a right or left turn. And includes innovative lane assistance technologies,^{22,23} as well as a way for the LS to scan the road ahead and alert you if a pedestrian is on a trajectory to make an impact with the vehicle.²⁰ This highly intelligent system helps you manage your speed around curves to handle turns with added confidence. It can also help brake or steer away if it detects an impending collision,²⁸ while still remaining in its lane. And with Lane Change Assist,²⁹ the LS is even designed to help automatically change lanes for you when it's safe to do so. For added visibility, it offers an expansive 24-inch Head-Up Display that not only projects key information such as speed, current gear and rpm onto the windshield, it's also one of the first displays to warn you about the possibility of a pedestrian or cross traffic ahead. This leading-edge technology brings us one step closer to realizing our vision of an accident-free world.

LS shown in Atomic Silver

LS shown in Manganese Luster⁴

PROVOCATIVE STYLE

With a distinctive design and unconventional craftsmanship, the 2023 LS doesn't just set the standard, it exceeds it.

Countless steps in the search for one pure emotion. That's the design philosophy behind our most evocative LS yet. First, it captures your attention with its coupe-like profile, striking headlamps and taillamps, and daring front fascia. Then, it draws you even closer with available Artwood trims, like a herringbone design that demands the same handcrafted process used to craft top-quality musical instruments.

The image shows the interior of a Lexus LS, featuring tan leather seats with a perforated pattern on the backrests and seat cushions. The dashboard and center console are finished with Artwood Organic Gloss trim. The steering wheel is black with the Lexus logo in the center. The infotainment screen is located in the center of the dashboard. The overall design is clean and modern, emphasizing luxury and comfort.

THE ART OF HOSPITALITY

Omotenashi is the Japanese concept of hospitality, and the artfully crafted interior of the LS is the ultimate expression of it. To help ensure that your enjoyment of conversation and music isn't compromised by unwanted noise, even the seat cushions were altered to reduce vibration. Available outboard seat-cushion side supports automatically adjust to facilitate an easy entry and exit. And merging performance with convenience, the available electronically controlled Adaptive Variable Air Suspension system not only helps to maintain the vehicle's low center of gravity while driving, it can also automatically raise the vehicle to make it even easier to step into or out of the LS.

LS shown with Palomino leather and Artwood Organic Gloss interior trim

LS shown with Palomino leather and Artwood Organic Gloss interior trim

WORLD-CLASS CRAFTSMANSHIP

ARTWOOD ORGANIC GLOSS

When you approach craftsmanship through the driver's eyes, even something that's existed for centuries can be made to feel new. Available Artwood Organic Gloss trim features a vibrant grain pattern reminiscent of flickering flames. Like nothing you've seen in an automobile, or in nature itself, it's created by a *takumi* craftsman slicing multiple sheets of wood across the grain and applying a natural gloss to enhance the vibrancy.

AMBIENT LIGHTING

Inspired by the warm glow of traditional Japanese *andon* lanterns and the welcoming spirit of *omotenashi*, soft LED illumination warmly invites the driver and passengers into the cabin. And light sources behind the armrest and door trim give the impression that the armrest is elegantly floating, adding to the serene atmosphere.

POLISHED MAGNESIUM DETAILS

With fluid, delicate lines reminiscent of the traditional Japanese harp (*koto*), the dash accents of the LS are made of magnesium because of its unique tactile qualities. The manufacturing process requires several layers of surface treatment in order to create the distinct feel and dynamic appearance.

KIRIKO CUT GLASS

With its delicately etched pattern and luminous glow, available *Kiriko* Glass is designed by hand to catch the light and the eye. Then a laser-scanning technique creates data from ten thousand different cuts in order to capture the uniqueness of this human touch. Each piece of glass requires up to 147 points of polishing, which can take hours to complete.

HAND-PLEATED TRIM

Created from a single piece of cloth, the available hand-pleated interior trim is a tribute to the art of origami. Simple yet painstakingly crafted, this masterful trim started as true origami and took four years to develop. The final expression is so complex and precise that it can only be folded by human hands.

FIRST-CLASS LUXURY: THE EXECUTIVE PACKAGE.

To achieve the finest passenger experience we've ever created, the Executive Package provides exceptional refinement. In addition to generous rear legroom and rear-seat butterfly headrests, it offers a class-exclusive Lexus Climate Concierge¹⁹ that uses 16 infrared sensors placed throughout the cabin to continually measure and respond to each occupant's unique temperature. It also features an extendable right-rear ottoman,³⁰ an impressive rear-seat reclining angle,³¹ and heated and ventilated rear seats with a massager. This luxurious package even offers the remarkable style of *Kiriko* Glass and hand-pleated trim. To help you make the most of every indulgence, the rear-seat passenger control panel enables you to manage the finest details—from individual climate zones to seven different massage settings.

LS shown with White leather and Laser Special Black interior trim

F SPORT STYLING

The F SPORT is a passionate expression of pure performance, both inside and out. In addition to its bold F SPORT 20-inch wheels with a Dark Vapor Chrome finish, it includes a host of exclusive exterior styling features such as a dynamic front fascia and mesh grille, exterior badging, darkened chrome lower trim, and large six-piston front and four-piston rear brakes.³² On the inside, F SPORT bolstered 28-way power front seats feature an exclusive perforated L-motif pattern. And aluminum pedals, a perforated leather-trimmed shift knob and steering wheel, performance-inspired sliding instrumentation, and an Ultrasuede^{®33}-trimmed headliner are just a few indicators of the passion that lies under the hood.

LS F SPORT shown with Circuit Red leather and Naguri Aluminum interior trim

REFINED PERFORMANCE

From seamless acceleration to a specially tuned suspension system, the LS offers a refined driving experience like no other.

LS F SPORT shown in Ultra White⁴

The seamless acceleration and all-wheel drive capability of the LS 500h AWD. The refined ride of the LS 500. The advanced vehicle dynamics of the daring LS F SPORT. The Lexus LS line evolves the definition of a Lexus flagship sedan. When it came to crafting the LS, no detail was overlooked. In addition to an available electronically controlled Adaptive Variable Air Suspension system, everything from the engine components to the composition of the tires was finessed to achieve further sound dampening within the cabin. The Lexus LS proves that only unconventional engineering can create unparalleled results.

TWIN-TURBO POWER. *PERFORMANCE, ELEVATED.*

Connecting with the driver in unprecedented ways demands engineering that's just as extraordinary. Consider the twin-turbo engine in the LS 500. Lexus researched, tested and crafted the turbochargers in the LS 500 in-house—something almost unheard of in the industry. This powerful 416-hp² V6 engine is paired with an equally exhilarating, class-exclusive 10-speed Direct-Shift automatic transmission.¹⁹ It delivers the optimal gear for a wide variety of driving conditions and lightning-fast shift times. The result? A flagship vehicle that evokes a visceral response—long after the drive is over.

DUAL POWER SOURCES. FIRST-CLASS PERFORMANCE.

The LS 500h AWD is the first multistage hybrid prestige luxury sedan, and, with the instinctive feel of a 10-speed automatic transmission, the most responsive and fastest LS Hybrid we've ever created. Built on an advanced powertrain, it boasts a combined 354-hp² 24-valve gas engine, powerful yet compact electric motors, and our lightest, most compact lithium-ion battery. With these impressive performance metrics, all-wheel drive capability and next-generation driver-assistance technology, the LS 500h AWD is the breakthrough that recasts the entire concept of excellence in the category.

LSh shown in Atomic Silver

LS F SPORT shown in Atomic Silver

F SPORT AGILITY

The razor-sharp handling of the Lexus high-performance line meets aggressive, track-inspired design with the LS F SPORT. Sharing a platform with the intense LC coupe and DNA with the LFA, it includes a specially tuned suspension system engineered by the same team behind the iconic supercar. Beyond six-piston front brake calipers with 15.7-in ventilated discs, optimized brake pads³² and deeply bolstered front sport seats, you can take the exhilarating drive even further with the LS Dynamic Handling Package. Boasting Variable Gear-Ratio Steering, Active Rear Steering and active stabilizers, it also features our most advanced vehicle dynamics control system—the first to control all six forms of vehicle movement.

ALL-WHEEL DRIVE. ALL-POWERFUL.

Never sacrifice style for capability with all-wheel drive, available on all LS models. Full-time all-wheel drive delivers engine power to all four wheels, and a Torsen^{®34} limited-slip center differential efficiently distributes it between the front and rear axles, helping optimize traction, handling and control in a variety of driving conditions.

LS AWD shown in Manganese Luster⁴

LS STYLES

LS 500

Available in RWD or AWD

Standard features:

416-hp² 3.4-liter twin-turbo V6 with 10-speed transmission

Adaptive Variable Suspension

Drive Mode Select with Sport S+ and Custom modes

Vehicle Dynamics Integrated Management³⁵

Safety Connect³⁶; Service Connect³⁷; Remote Connect³⁸; Drive Connect⁵ with Cloud Navigation, Intelligent Assistant (Hey Lexus), and Destination Assist; Wi-Fi Connect³⁹—with AT&T Wi-Fi hotspot trials and Integrated Streaming (Apple Music^{®12} and Amazon Music⁴⁰) compatibility. Paid subscription required after trial. 4G network dependent. See lexus.com/interface for details.

USB smartphone connectivity with 6 USB ports⁴¹

Lexus Interface¹ with 12.3-in touchscreen display

Lexus 12-speaker Premium Audio System

Wireless Apple CarPlay^{®10} integration

Wireless Android Auto^{™14} compatibility

Heated leather-trimmed steering wheel with paddle shifters

16-way power-adjustable heated and ventilated front seats

Electrochromic (auto-dimming) inside and outside mirrors with puddle lamps

Dual-zone climate control

Power rear sunshade and power moonroof

Hands-free power open/close trunk

SmartAccess⁴² with push-button Start/Stop

Premium Triple-Beam LED headlamps with Adaptive Front Lighting System⁴³

A LED taillamps and turn signals

Lexus Safety System+ 2.5¹⁸

Blind Spot Monitor⁴⁴ with Rear Cross-Traffic Alert⁴⁵

Intuitive Parking Assist with Auto Braking⁴⁶

Backup camera⁴⁷

10 airbags⁴⁸

Complimentary scheduled maintenance services.⁴⁹ (Please refer to the *Warranty and Services Guide* for details.)

LS 500h AWD

Includes LS 500 features and Luxury Package, and adds or replaces:

354-total-system-horsepower² 3.5-liter V6 with Lexus Multistage Hybrid Drive

EV drive mode⁵⁰

Lexus Teammate³ with Advanced Drive⁷ (trial/subscription required; 4G network dependent) and Advanced Park⁶

24-in Head-Up Display integration

20-in split-10-spoke alloy noise-reduction wheels with Vapor Chrome finish

Mark Levinson^{®8} 23-speaker, 2,400-watt Reference Surround Sound with Quantum Logic[®] Immersion

LS 500 F SPORT

Available in RWD or AWD

Includes LS 500 features, and adds or replaces:

F SPORT exterior styling, including front bumper, grille inserts, rear diffuser and lower door trim

20-in split-five-spoke alloy wheels with Dark Vapor Chrome finish

Six-piston front brake calipers³² with 15.7-in ventilated discs

Four-piston rear brake calipers³² with 14.1-in ventilated discs

F SPORT-tuned Adaptive Variable Suspension

Performance-inspired instrumentation with sliding bezel

F SPORT perforated leather-trimmed interior with Ultrasuede^{®33}-trimmed headliner

F SPORT perforated leather-trimmed shift knob and heated steering wheel

F SPORT 28-way power-adjustable front seats with enhanced bolsters, perforations and embossed headrests

Passenger-seat power cushion extender

Aluminum pedals and interior trim

PACKAGES

INTERIOR UPGRADE PACKAGE (LS 500)

Quilted-stitch perforated semi-aniline leather interior trim

28-way power-adjustable driver's seat with multifunction massage and cushion extender

Ultrasuede-trimmed headliner and sun visors

Power front seatbelt buckles

Wood- and semi-aniline leather-trimmed center console

Semi-aniline leather-trimmed door armrests

Heated rear seats

Leather-wrapped heated steering wheel with premium wood trim

Premium wood trim

19-in split-10-spoke alloy noise-reduction wheels with high-gloss finish or 20-in split-10-spoke alloy noise-reduction wheels with Vapor Chrome finish

LUXURY PACKAGE

Includes Interior Upgrade Package, and adds or replaces:

28-way power-adjustable passenger seat with multifunction massage and cushion extender

Remote adjustment for passenger seat

B 18-way power-reclining outboard rear seats with memory

Power side-window sunshades

Semi-aniline leather-trimmed rear armrest with 7.0-in touchscreen controller

Rear-seat knee airbags⁴⁸

Adaptive Variable Air Suspension with rapid height function

Panoramic View Monitor⁵¹

Four-zone Climate Concierge with climate-control front and outboard rear seats, infrared sensors and air purifier (LS 500)

Front and rear acoustic glass

EXECUTIVE PACKAGE (LS 500)

Includes Luxury Package, and adds or replaces:

Power-retractable butterfly front headrests

22-way power-adjustable rear seats with butterfly headrests, memory and multifunction massage with heat

Right-rear power recliner³¹ with sliding ottoman³⁰

20-in split-10-spoke forged alloy noise-reduction wheels with Black and machined finish

Mark Levinson^{®8} 23-speaker, 2,400-watt Reference Surround Sound with Quantum Logic[®] Immersion

EXECUTIVE PACKAGE WITH KIRIKO GLASS (LS 500)

Includes Executive Package, and adds or replaces:

Kiriko Glass interior door trim

Hand-pleated interior door trim

COLD-WEATHER PACKAGE (STANDARD WITH AWD)

Windshield wiper de-icer

Headlamp washers

Enhanced interior heater for faster heat output in cold weather

DYNAMIC HANDLING PACKAGE (LS 500 F SPORT RWD)

Includes LS 500 F SPORT features, and adds or replaces:

Variable Gear-Ratio Steering

Active Rear Steering

Active stabilizers

Panoramic View Monitor⁵¹

F SPORT-tuned Adaptive Variable Air Suspension with rapid height function

LEXUS SAFETY SYSTEM+ A²⁶

Enhanced All-Speed Dynamic Radar Cruise Control²¹ and Lane Change Assist²⁹

Pre-Collision System²⁰ with Pedestrian Alert⁵² and Head-Up Display integration

Front Cross-Traffic Alert²⁷ with Intersection Support²⁷
